Ideabar

Primary role is web development and management of the development team. Build custom WordPress and Shopify websites using modern web technologies. Also responsible for scoping website projects, writing proposals, and collaborating with UX/UI designers on design and strategy.

OGK Creative

Designed and developed custom WordPress websites and lead the development team. Other roles included client management, email marketing, SEO, and stay up to date on digital best practices.

The Martin Group

Collaborated with designers to design and develop custom websites built primarily in WordPress. Built WordPress themes from scratch using PHP, JavaScript, and jQuery.

Manzella Marketing Group

Designed, developed and maintained websites built primarily in WordPress and Drupal. Responsible for search engine optimization, email marketing, branding/logo design and traditional print design.
